## ATTACH IMAGES TO YOUR E-MAIL

*Add new capabilities  
with LaserFiche  
plug-ins*

*"...glide effortlessly  
through a sea of paper  
and pinpoint the exact  
document you need,  
precisely when you  
need it."*

Now send documents around the world instantly with the LaserFiche E-mail Plug-in! Whether you receive a records request from a co-worker in the same building, or from someone in another country, LaserFiche's search and e-mail capabilities allow instant response. The LaserFiche E-mail Plug-in gives you the power to select any document in your database and attach it to your outgoing mail message simply and efficiently.

### **How to use the E-mail Plug-in:**

Select a LaserFiche document image that you want to e-mail. Click on the e-mail plug-in. Write your message. Click on Send. That's all there is to it!

### **E-Mail Highlights**

- Automatically attach a document to an outgoing message.
- Send LaserFiche documents with or without redaction at the click of a mouse.

- Color and black-and-white images can be mailed in TIFF Group IV, TIFF Group III, BMP, PCX, JPEG, or CALS file formats.
- Mail out document images from LaserFiche through any MAPI-compatible e-mail system including GroupWise 4/5, Lotus Notes 4 or higher, and Microsoft Exchange.
- Send LaserFiche documents to anyone with e-mail, the receiver doesn't need to be MAPI compliant.

The LaserFiche E-mail Plug-in is the latest addition to an award-winning family of products used successfully by Fortune 1000 corporations, government agencies and universities around the world. For more information please contact your LaserFiche reseller or call the LaserFiche office at (310) 793-1888.
